

Legal Firm for Legal and Regulatory
(Advisory) Services

27 November 2025

Scope of the Consultancy Assignment

Objectives of the study

- 1. Assessment and review of the existing legal and regulatory framework of the energy sector in Suriname.
- 2. Drafting of new primary and secondary legislation or legislative amendments.
- 3. Legal assistance to the EAS regarding its responsibilities and tasks.

Assessment Main Results

- Use of instrument of Staatsbesluit limits effectiveness
- Legal framework for rural electrification is missing
- Definition of terms needs expansion
- Financing of EAS need reinforcement
- Clear responsibilities in tariff setting
- Generation expansion for non-RE
- Need for explicit license framework

Output: Draft Legal Instruments
